

SUBJECT: ICE0606/0605 SERIES EXPANSION VALVE CHANGE

Number: 08-26
Product: Cuber
Date Issued: August 2008
From: Technical Service

A change has been implemented regarding the expansion valve on the ICE0606/0605 Series cube ice machine. Ice-O-Matic is now utilizing a Danfoss manufactured valve, which will replace the Alco manufactured valve. This supplier change was implemented on July 25, 2008, and will affect units manufactured beginning with serial number **08071280013101**.

Model Number	Part Number	Manufacture
ICE0606 A/W/R	9151151-01	Danfoss
ICE0605 A/W/R	9151149-01	Danfoss

This Danfoss manufactured expansion valve can replace any Alco manufactured expansion valve used on the ICE0606/0605 series cubers.

Model Number	Alco Valve Part Number	Replacement Danfoss Valve Part Number
ICE0606 A/W/R	9151134-02	9151151-01
ICE0605 A/W/R	9151134-02	9151149-01

NOTE: ICE0606/0605 units that are revision 1 (Sporlan manufactured valve) **cannot** use the Danfoss manufactured valve.

Installation Note: The new Danfoss TXV utilizes a stainless steel bulb. When installing a replacement Danfoss TXV valve, the bulb must be installed with the proper clamp and as tightly as possible to insure proper performance.
